

Troop & Crew Adult Leader Communications Policy

Effective Date: February 4, 2014

Revised: March 18, 2014

Troop 200 and Crew 200 are blessed to have a large number of registered adult leaders. It is therefore vital to our operation, to formally have an adult leader communication policy. The committee has approved Email, as our method of mass communications. When a Troop or Crew email is sent, we need you to read each completely, in a timely manner, and respond if there is a posted reply deadline.

The Committee approved the use of "**RESPONSE REQUIRED**", in the Subject line of an email, to signal that the leaders should to provide a response.

Lack of response to the required communications effects our planning timelines.

Failure to comply to this policy will affect that individual's eligibility to participate in the Troop or Crew, and associated activities.
