

Raven Knob Summer Camp 2015

by C.Adler

Every other day we have a campfire at Raven Knob, to welcome the scouts, entertain them, and dismiss them to go home. Before it starts, they play music and allow everyone to settle themselves before the fire. The staff does skits and announces their names and what they do at Raven Knob during the campfire. They also prepare the meals for the camp and teach and mentor us.

There are many different sections of the camp. There is the Nature area, Scoutcraft area, handicraft area, Trail to Eagle, Venture crew, and Aquatics. These areas are where we are taught the merit badges. Aquatics is located right on the lake, and also offer the mile swim, and the swim test if you have free swim, or any water based merit badge.

During one of the merit badges, a scout's notebook fell off the bridge that we were being taught on and fell in the water. We got it out with the help of a broom, unfortunately, the boy scout had to restart his progress in the notebook.
