

# Camp Raven Knob 2016

## C.Adler

Thursday night was chicken wing night. The whole troop lined up and got a squirt of hand sanitizer before digging in to the chicken that the leaders had supplied us with.

Mr Harrell made the whole troop root beer the day and carbonated it by putting dry ice in the drink.

After the wonderful feast, we went to the OA arena to spectate the campfire. We had many participating scouts that did a wonderful job participating in the OA event.

Two days later we were finishing up all of the classes and getting ready to go and finally came home.

PS: the day of the Raven Knob Hike was rained out so unfortunately not all of Troop 200 were able to go up the mountain.
